Description:

When the atomic bomb was dropped on Hiroshima, few could have anticipated its potential for devastation. Pulitzer prize-winning author John Hersey recorded the stories of Hiroshima residents shortly after the explosion and, in 1946, *Hiroshima* was published, giving the world first-hand accounts from people who had survived it. The words of Miss Sasaki, Dr. Fujii, Mrs. Nakamura, Father Kleinsorg, Dr. Sasaki, and the Reverend Tanimoto gave a face to the statistics that saturated the media and solicited an overwhelming public response. Whether you believe the bomb made the difference in the war or that it should never have been dropped, "Hiroshima" is a must read for all of us who live in the shadow of armed conflict. --This text refers to the edition.

From Library Journal On the basis of a return visit 40 years after the dropping of the bomb,

Hersey has written a ``final chapter'' to one of the most important books to come out of World War II. The new chapter follows a reprint of the original text on the dropping of the first atomic bomb, and is written in the same spare, objective style. In it, Hersey brings up to date the lives of six survivors he covered so brilliantly in 1946. Once again he evokes the humdrum and the surreal elements in the aftermath of the bomb, and with eloquent simplicity he includes statements of other nations' nuclear tests. Compelling, unforgettable, and more timely than ever, this is absolutely essential for collections from junior high on. Robert H. Donahugh, Youngstown and Mahoning Cty. P.L., Ohio
