Solutions include code snippets which are primarily in **Python**. Complete programs are available at **epibook.github.io**.

Since different candidates have different time constraints, EPI includes a **study guide** with several **scenarios,** ranging from weekend **Hackathon** to **semester long preparation** with a recommended a subset of problems for each scenario.

All problems are classified in terms of their **difficulty level** and include many **variants** to help you apply what you have learned more widely.
