Over 50,000 copies have been sold since its introduction in 2005...a level of acceptance that has made this atlas one of the most successful Idaho map products ever. The improvements in the fourth edition insure its continued success. Benchmark's field-checked Landscape Maps™ now show ground-cover detail at a very high resolution. It's easy to see, at a glance, whether an area is forested, cultivated, lava flow, or scrubland. This feature is ideal for those who want to know the most about an area before visiting.
