## Description:

The review from Amazon.com reviewer

1. Of all the classics on prayer, none is more helpful than this brief work. Murray never hammers, but entreats, then lovingly explains how to do what he is advocating. You will be helped more than challenged, and given a taste of what waits for you in his "With Christ in the School of Prayer"

2. Andrew Murray was always known for his great work "Absolute Surrender", however, this work is none other than a classic, simple, straight forward, and he actually did what he set out to do, which was to help the reader pray. He left out the academics, and hermeneutics, that could have easily doubled the size of the book, confounded the reader, and had him to miss his point. He wrote succinctly, but shared a lot of depth that came from years of praying. I was ready to put my Kindle down and pray!
